

## TECHNICAL SPECIFICATIONS

### Pulverizer ZP4

#### General Characteristics:

- |                      |          |
|----------------------|----------|
| • Type:              | ZP4      |
| • Disc Diameter:     | 400 mm   |
| • Disc Material:     | Cr12MoV  |
| • Motor Power:       | 37 kW    |
| • Rotational Speed:  | 3800 rpm |
| • Max. capacity PE:  | 150 kg/h |
| • Max. capacity PVC: | 400 kg/h |
| • Cooling method:    | Water    |

#### Discs:

- Tempered steel type Cr12MoV for stationary and rotor disc.
- Heat-treated to 60 HRC.
- All surfaces are precision grounded.

#### Control System:

- Variable input speed
