

TECHNICAL SPECIFICATIONS

Pulverizer ZP6

General Characteristics:

- | | |
|----------------------|----------|
| • Type: | ZP6 |
| • Disc Diameter: | 600 mm |
| • Disc Material: | Cr12MoV |
| • Motor Power: | 55 kW |
| • Rotational Speed: | 3800 rpm |
| • Max. capacity PE: | 250 kg/h |
| • Max. capacity PVC: | 600 kg/h |
| • Cooling method: | Water |

Discs:

- Tempered steel type Cr12MoV for stationary and rotor disc.
- Heat-treated to 60 HRC.
- All surfaces are precision grounded.

Control System:

- Variable input speed
